CORDIS User Feedback Survey 2002

Dear Sir/Madam,

CORDIS, published on the Internet by the European Commission's Innovation-SMEs programme, is a service designed to provide information on a vast range of research and development and innovation activities at European level. At the same time, it keeps the European research community up-to-date on the implementation of Community Framework Programmes for Research and Technological Development.

As a CORDIS user we would be grateful if you could help us to enhance the CORDIS service for our user community and tell us how we can better meet your needs. Completing this survey should take no more than ten minutes. The questionnaire is available in five language versions and two formats, HTML and PDF, are available.

The simplest way to help us is to complete and return the on-line questionnaire. This is available on:

http://www.cordis.lu/usersurvey/en/usersrq_en.htm

... where you can simply choose the language version you prefer, complete your reply and forward to us automatically. Using this facility also assists us to process your reply with greater speed.

However you may prefer to use the PDF version. The different language versions are available by clicking on the PDF button in the introduction section of the corresponding HTML questionnaire that you can select from the above Web page. Should you choose to complete the questionnaire on paper, you should return it via fax or post to the number/address provided at the end of the questionnaire.

All completed surveys shall remain strictly private and confidential and shall only be used for the purpose of enhancing the CORDIS service.

We would like to take this opportunity to offer you our sincere gratitude

for assisting us with your valued opinion.

Yours faithfully,
Kurt KÖNIG
European Commission - Head of Unit ENTR/C/4
Communication and Awareness
